BRIEF ABSTRACT OF LETTER.

Fds copy of a letter from the Director, Southern Circle, Survey of India and requests the assent of the Govt. States also that the Govt. of Mysore have the opportunity of obtaining an up-to-date map of the State at a minimum cost, that ultimately the public will require such a map, and that if the matter is deferred the possibility is that it will cost four times as much later on.

NOTES AND ORDERS.

(15) I do not quite understand why we should be called upon to pay for this survey at all. Apparently, it is not undertaken ~~entirely~~ in the interests of Mysore. 'Survey of India' is a Central Subject and strictly, it ought to be an obligation of the Central Government to carry ^{out} ~~on~~ these survey operations and sell the maps to the public. We may also buy a few copies that we require for the use of our departments. If, as the Director, Southern Circle, Survey of India, thinks that 1" -- 1 mile maps are more useful, it is only reasonable that the Government of India should carry on their survey operations ^{for producing maps} on this scale. In fact, they have done so already in respect of 9,215 sq. miles, ^{for} ~~for~~ the cost of the work connected with which area we were not asked to contribute anything.

(27) Another point on which I have not been able to get any information in the file is whether the Government of India will give us ~~a~~ free of cost any ~~number of~~ copies of maps produced on the basis of the survey towards the cost of which we are required to contribute.

(28) The decision communicated in our letter dated 5th October 1923 in regard to the area of 1,420 sq. miles apparently, implies a sort of commitment on our part to contribute at the rate accepted in that letter for the remaining area of 18,809 sq. miles. If this implied commitment is binding upon us and if the Government of India

^{are}
India is doing something out of their ordinary way to oblige us, we ~~shall~~ have to pay. The estimate of this payment exceeds Rs. 1 lakh. It is necessary, ~~of course~~, if possible, to have the liability reduced and arrange for the discharge of whatever liability is inevitable in not less than three annual instalments after the work is fully completed.

Serial
No.

(29) I would repeat the point in regard to the number of free copies of maps based on the survey towards the cost of which we are asked to contribute.

Chief Secy
Cl Secy

Mull
27/5/25
Mull
20/5/25
Mull

78 2495-24

(30) The sum that will have to be paid is large. Though, no doubt, payment has been made in respect of the maps for 1420 sq. miles, there would appear to be no undertaking to pay for the remaining area now proposed to be taken up. No payment has been made in respect of the 9215 sq. miles which had been previously prepared. Even our letter of 5th Dec/23 ^{clearly} ~~referred~~ referred to ^{our} non-liability to pay, though ^{in certain} special cir^{cs} indicated, payment of the small sum of Rs 7180/- was promised

Serial
No

31) The Govt. of India do not, it is believed, supply any ^{to} maps free. But this information may have to be further verified.

32) The main point for decision is with regard to the contribution ~~to~~ which is expected from the Mysore State and whether it may be agreed to, & if so, to what extent.

(Dewan) 1 M2
22.5.25

33) Please look up & refer to from Census & take careful of abany line we understand & pay this

34) Mr. Dees/lu.
Are there any other papers
besides these now before
Please indicate M2
25.5.25

35) There are no other papers connected with this matter. We did not at any time ^{previously} undertake to pay the charges or any part of the charges of this survey. When the Residency however wrote regarding the survey of 1420 sq. miles

Serial
No.

two years ago and asked for a contribution we said that we would pay half the excess cost of doing the work on the one inch instead of the half inch scale.

3c The notes do not show why this was agreed to. But the reason may be presumed ~~that~~ to have been that our original survey was on the one inch scale and that it was desirable to have the ~~extension~~ survey also on the same scale. As the foot of ~~quadrants~~ were said to have approved of the half inch scale the contribution must have been intended as an inducement to do the ~~rest of the~~ survey of the 1405 miles ~~on the same~~ one inch scale.

April 37 In making their proposals two years ago the Res^y states that the rest of the state would not be taken up shortly.

38 As 11 thousand Sq miles, have
been surveyed on the Merich scale
it is for consideration if the other 10
thousand Sq miles, sh^d also be done
on the same scale.

39 Payment for the Survey

Serial
No

of the 1420 square miles referred to above was made in accordance with the letter of Oct 1923 (Flag Cr). In that letter no promise was made or implied that we would pay at the same rate if the rest of the State was resurveyed on the one inch scale.

Mr
26/5

Chief Secy)

no there has been no promise definite express or implied, to ^{contribute} for this resurvey & mapping. In fact, even when making the payment for the small area in 1923, the point of our non-liability was clearly indicated. Our letter of 5.9.23 also ~~contained~~ referred to the special reasons for the payment viz; the preparation of the map on a scale different from that adopted elsewhere.

The present ^{reference} ~~question~~ relates to the mapping of 18,800 sq. miles and the rate of contribution is fixed at Rs 5/8 per sq. mile. The amount involved is large (Rs 1,03,450), but it is not likely ^{that} any reduction will be agreed to, as the Director has stated

Serial No.

that the contribution asked for viz; Rs 578 is itself small ^{and full} the actual cost may amount to as much as Rs 24/- per sq. mile.

Hence, if the payment is to be agreed to, we could only ask for its being ^{spread} over three years after the work is fully completed. We could also raise the question of ~~the~~ the supply of a sufficient number of copies of the ~~Common~~ maps free of cost.

59) In March 1923 the Residency wrote to us that
the Government of India had had under review the
question of the Survey operations in Mysore for some
time previously; that the original one inch surveys
of Mysore were completed in 1886 of which the cost
had been paid by the State; that a resurvey on modern
had been proposed and an area of 9,215 Square miles
already re-surveyed; and that ^{it} was intended to under-
take the re-survey of 1,420 miles more in the season
of 1922-23. They added that it was not proposed to
take up the survey of the remaining area of the State
for some years but that it was desirable to decide

ces.
This may be noted in the
file now found to be in
with the other file again
has noted on it
my
3/8

How the matter began

Serial
No.

decide the scale of survey and mapping to be adopted. The Surveyor General of India, they added, considered that maps on the scale of one inch to two miles would meet all the requirements of the general public ~~and also that maps of this scale of one inch to two miles would meet all the requirements of the general public~~ and also that maps of this scale would be sufficient in view of the fact that the Madras areas were to be surveyed on that scale. But since the Mysore State contains valuable mineral deposits, it was possible, they suggested, that we might wish to have larger scale maps that is of one inch to one mile as in the original survey. The Surveyor General of India recommended therefore the adoption of the larger ^{provided} scale, we were prepared to contribute to the cost of operations. They concluded the letter thus:-

"The Government of India do not now propose to ask the Mysore Government to contribute any portion of the total cost. (of surveying the 9,215 sq. miles). In foregoing this claim to reimbursement they, however, feel that they are justified in asking the Mysore Government to pay Rs.27,690 towards the cost of the 1,420 sq. miles now under survey, i.e., 2/3rds of the total cost at Rs.26 per sq. mile.

(60) As regards the remaining area of 18,809 sq. miles, the Government of India propose that

No claim for 9215 sq miles surveyed before 1923

Claim made only for the 1420 sq miles of the 1922-23 season.

Serial
No.

that the question of a contribution be left over until this area comes under survey."

61) We replied that the maps of the original survey are found to be fairly accurate for practical purposes that the revision of the survey having been undertaken by the Government of India independently of our requirements the question of our contributing a share to the cost did not seem to arise and that as regards the scale of survey and mapping for the remaining area of over 18,000 sq. miles the one inch to two ^{miles} ~~each~~ ^{smaller scale of} which was found sufficient by the Government of India would also be sufficient for our purposes. With reference to the request for payment of contribution for the survey of 1,420 sq. miles, however, we said as follows:-

"Since the scale of one inch to one mile seems to have been adopted by the Surveyor General of India, partly with a view to meet what was thought to be necessary for the requirements of the Mysore Government, the Government of His Highness are agreeable to meet half the excess of the cost, consequent on the adoption of the one inch scale and the amount, viz., Rs.7,810 will be paid in the year 1924-25."

62) The Residency in acknowledging this letter said that the Government of India did not wish to pursue just then the question of the State's contribution towards the cost of the area of 18,809 sq. miles remaining to be re-surveyed but the hope was

Serial
No.

was expressed that when the time came the Mysore Government would favourably consider the question of making a contribution. To the hope expressed in this letter no response was made.

63/ In June 1924 the Residency sent for remarks a programme for further resurvey. No question of contribution was raised. As our reply of October 1923 was decisive as to our not contributing for further re-survey on the larger scale, a reply was sent to this communication saying that we had no remarks to offer.

64/ The next we heard of this matter was in February 1925. In asking for payment for the Survey of 1,420 miles as agreed to in our letter of October 1923 the Director of Surveys again raised the question of the scale of survey and mapping and urged the adoption of the larger scale. He added:-

"The Surveyor General of India has asked me to express his regret that we omitted to regularise the position by asking the approval of the Mysore Government to a change of scale and their assent to a contribution of Rs.5-8-0 per sq. mile for the remaining area 18,809 sq. miles.

The lack of co-operation of the Mysore Government in this respect might possibly put us in difficulties with the Government of India later on."

9
The 1924 programme
No contribution proposed

W,
Question now raised for
consideration

Serial
No.

65) The Resident in forwarding this letter suggested the adoption of the larger scale. The payment for the survey of 1,420 sq. miles previously agreed to has been made and the proposals ²for the scale of survey is now under consideration.

Summary of case

66) It will be seen from the above that an area of more than 9,000 sq. miles was re-surveyed on the larger scale quite independently of our wish or opinion and no contribution for the area was asked for by the Government of India or paid by us; that for an area of 1,420 sq. miles surveyed in the 1922-23 season payment at Rs.5-8-0 per sq. mile was made as a special case; that in making this payment we made clear the position that we did not want the rest of the State to be surveyed on this scale and gave no undertaking that we would contribute to the cost. The Survey of India ^{now} wish to use the payment made ^{as a special case} for the 1,420 sq. miles survey in 1922-23 as an argument for further survey on the larger scale on condition of our paying part of the cost.

Question for orders

67) The question therefore, is whether we should revise the position previously made clear namely that survey and mapping on the larger scale is not necessary for our purposes and that we cannot contribute. If that position is revised the State will have to pay over a lakh of rupees for the area of nearly 19,000 sq. miles remaining to be surveyed.

68) While this question has been under consideration the Survey of India sent in June last a programme

Serial
No.

The 1925 programme

programme of operations to be conducted "in continuation of that to previous seasons and under the same conditions" which the Residency forwarded for favour of remarks. The phrase "Under the same conditions" used on the present occasion was not used in sending the previous programme. What conditions were meant was not clear and it was likely that one of the conditions might be payment of contribution as in the case of the Survey of the 1,420 sq. miles. As the question of contribution has not been settled it was proposed to send a reply stating that we had no objection to the programme and inviting attention to this correspondence regarding contribution.

The Res^y propose a conference between the Dewan, the Resident and the Director of Surveys.
Submitted with reference to Dewan's

order of 10/8/25

14/8/25

Dewan) (69) Please reply explaining the whole position as above & add a list of what supply of the maps of the 1st area.

The remaining area - perhaps a rough sketch of 10,000 sq. miles. Maybe 30,000 printed sheets a good supply of the maps. Please Counsel the Govt. Secy, Punjab.

M. Venkatesh Genger

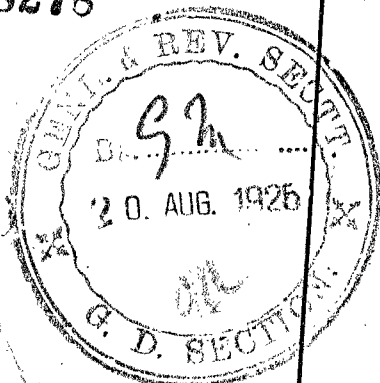

908 15/8/25 - Jachdey

71) Returned with compliments.

72) As stated in my letter No. 2, dated 14th July 1924, the Topographical resurvey is apparently undertaken for quasi-scientific or military purposes. The work in this case was not done at the instance or for the benefit of the Mysore Government. I do not see how it can be asserted that there is any obligation on the Mysore Government to pay for this resurvey either under the Instrument of Transfer or on account of any contract or undertaking entered into by the Mysore Government.

73) 2. So far as I am ~~aware~~ aware, the Topo sheets are not made much use of by Revenue or Survey officers and the advantages of the resurvey to our State do not seem to be much.

74) 3. The previous payment of Rs. 7,810 seems to have aroused the expectation that such work would be paid for in future years also and is apparently interpreted as having committed the Mysore Government in this matter to a certain extent. "The programme of work" sent by the Survey of India Officer with his letter No. 4628 of 11th June 1924, was evidently intended as a feeler and it would perhaps have been better if we had then expressly disowned liability for the charges of the work in question. That is the reason why in

Serial
No.

my letter mentioned above (No.2, dated 14-7-1924, See page 18 of file No.106-23 of 1923-24) I definitely raised this important issue and pointed out that the object of sending the programme seemed to be to prepare the ground for asking for the charges from the Mysore Government later on. In fact, I remember to have spoken about the matter to Mr. C. S. Kuppuswamiengar, who was then Under Secretary.

75) 4. It is however too late to rectify the matter now and I quite agree that it would be a good solution if we can get out of the entanglement, and get a discharge, as it were, for our liabilities or supposed commitments once for all by paying a contribution of 10,000 rupees and stipulating for the free supply of a sufficient number of maps, to meet the requirements of the various Departmental Heads, Deputy Commissioners of Districts, the Secretariat etc.

D. Srinivasan Iyer

The matter was discussed at the Residency. While Colonel Tandy admitted that it was quite unbusinesslike and irregular to have continued the survey without obtaining a definite agreement from the Government of Mysore, he urged that the programme had been sent and it was not objected to. Further survey has been stopped but about 8,000 square miles done have to be paid for and the rate now charged is nothing compared with what it has actually cost the Government of India. He would be prepared to recommend the spreading of the expenditure during the next 3 or 4 years. I tried to see if the rate could be reduced but this appeared to be impossible. Under the circumstances, all we can do is to agree to pay a sum of Rs.10,000 for a period of 4 years and nothing more beginning from 1926-27.

Copies of each work
to be submitted

Submitted to His Highness.

In March 1923, the Residency wrote to us that the Government of India had had under review the question of the survey operations in Mysore, that the original one inch surveys were completed in 1886, that a re-survey on modern lines had been proposed and an area of 9215 sq.miles already re-surveyed and that it was intended to undertake the re-survey of ¹⁴²⁰ ~~1800~~ ^{square} ~~and odd~~ miles in the season 1922-23. They added that it was not proposed to take up the survey of the remaining area of the State for some years but that it was desirable to decide the scale of survey and mapping to be adopted. For reasons stated in their letter of 14th March 1923, they suggested the adoption of a scale of one inch to one mile as in the original survey as against the scale of one inch to 2 miles which the Government of India considered sufficient for their purposes. While claiming no payment of any share of the cost of re-survey of 9,215 sq.miles, the Government of India, it was stated, felt that they were justified in asking the Mysore Government to pay Rs.27,690 towards the cost of the ¹⁴²⁰ ~~1800~~ ~~and odd~~ sq.miles then under survey. The contribution worked out to two-thirds of the total cost at Rs.26 per sq.mile. As regards the remaining area, the question of contribution was proposed to be left over.

E 2. We stated in reply that no question of contribution arose in the case and that the scale of one-inch to two miles which was found sufficient by the Government of India would also be sufficient for our purpose. As regards the contribution towards the survey of 1,420 sq.miles undertaken in that season, however, we stated that as the larger scale seemed to have been adopted partly with a view to meet what was thought to be necessary for our requirements, we would meet half the excess of the cost of surveying on the larger scale, which worked out to Rs. 5-8-0 per sq.mile. In acknowledging this letter the Residency stated that the Government of India did not wish to pursue just then the question of the State's contribution towards the cost

C

of the remaining area of 18,809 sq.miles of the State. The hope was, however, expressed that when the time came, the Mysore Government would favourably consider the question of making a contribution.

VI 3. In June 1924, the Residency sent, for remarks, a programme of further re-survey. No question of contribution was raised. S A reply was sent to this communication that we had no remarks to offer. This is taken by the Government of India as our implied consent to the operations being carried on. We next T heard from the Residency in February 1925. In asking for payment E for the survey of 1,420 sq.miles referred to in the correspondence of 1923, it was requested that for the remaining area of the State a contribution might be paid at the same rate as for the 1,420 sq.miles, that is at Rs.5/8/- per sq.mile. The lack of co-operation of the Mysore Government in this respect, might, it was urged, put the Surveys Department in difficulties with the Government of India later on. In forwarding this letter, the Residency recommended the adoption of the larger scale on the terms proposed by the Director of Surveys.

L 1) On a full consideration of all the facts of the case, it was decided that we need not contribute for the expenditure of the survey on the larger scale as this larger scale was adopted independently of our wish or consent, and we had given no undertaking that we would contribute to the cost. A reply was accordingly sent that having regard to the facts that the maps on the larger scale are not required by us and the contribution to be paid for the remaining area amounts to nearly a lakh of rupees, we did not feel justified in accepting any obligation for any further contribution. It was, however, added that should the Survey of India choose to complete the survey of the State on the larger scale, the Government would be prepared to make a lump sum contribution of Rs.10,000 (in addition to the sum of Rs.7,810 already paid for the survey of 1,420 miles) provided a sufficient number of maps were supplied free.

u 5) The Residency wrote again on the 9th instant stating that the Surveyor General considered the offer of Rs.10,000 towards the

cost of the re-survey of nearly 20,000 sq.miles of country insufficient, and suggesting that the matter might be discussed at a Conference at the Residency. I met the Resident and the Director of Surveys at the Residency on Friday the 13th instant and discussed the matter with them. The Director of Surveys admitted that it was quite unbusinesslike and irregular for the Surveys Department to have continued the survey without obtaining a definite agreement from the Mysore Government, but urged that the programme had been sent and had not been objected to. Further survey had been stopped, but about 8,000 sq.miles had been done and have to be paid for and the rate now charged is nothing when compared with what the survey has actually cost the Government of India. He said that he would recommend the spreading of the expenditure during the next 3 or 4 years. I tried to see if the rate could be reduced, but this appeared to be impossible.

6) Under these circumstances I am of opinion that we might agree to pay a sum of Rs.10,000 a year for 4 years, beginning from 1926-27 as contribution for re-survey on the larger scale. It is true that the re-survey on the larger scale is required mainly for Military and quasi-scientific purposes and is not of much use for purposes of ordinary reference to our officers. But it is on the whole desirable to have these modern maps on the larger scale so that there may be one uniform system upon which these maps are prepared for the whole of India. The area remaining to be dealt with is 18809 sq.miles. According to the rate asked for by the Survey of India in their revised proposals i.e. Rs.5-8-0 per sq.mile, it will be about a little more than a lakh of rupees which according to them, represents half the extra cost for re-survey on the larger scale. My proposals reduce the amount further to less than half this amount. Further survey of the remaining extent has been stopped and may be resumed only at our request.

9285
8200 = 18,800

7) I submit the papers for the gracious perusal of His

Highness and solicit approval to the offer of Rs.10,000 a year for 4 years as contribution as stated above.

Bangalore,

21st November.

31
THE PALACE,
MYSORE.

3rd December 25.

My dear Sir,

99) In returning File No.348 dated the 21st November 1925, I am directed to say that His Highness would prefer to have the re-survey of the remaining area done on the larger scale as soon as practicable, and he would be glad if you would kindly communicate the decision to the Director of Surveys. His Highness feels that the present is a good opportunity for getting the re-survey done at a comparatively small cost to the State. Payment of the additional Rs.50,000/- or so, which the survey of the remaining area of roughly 10,600 square miles will entail, may be spread over a period of five years at Rs.10,000/- a year, as suggested by you in the case of the 8,200 square miles, already surveyed by the department.

Yours sincerely,

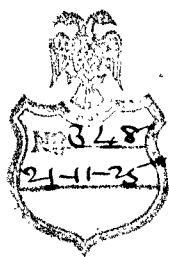

Mirza M. M. al

Raja Mantra Dhurina

Draft Submission Note.

....

104 I beg to resubmit the file regarding the re-survey of the State by the Survey of India, which was received with D. O. letter No.114 dated the 3rd December from the Private Secretary to His Highness. There seems to be some little misapprehension as to the arrangement I had made with the Director of Surveys. The arrangement is that for the payment of Rs.40,000 the Survey Department should survey the remaining area of 10,000 sq. miles on the larger scale and this amount is to be spread over 4 years. It is not necessary to offer any higher amount as the Survey Authorities have recognised their mistake and are quite prepared to help us to have the survey on the larger scale.

The draft of a reply to the Residency put up herewith may be graciously approved.

Dewan.

B
7/12

105 This is necessary for the Survey of India. Under the Survey of India. Calculate the amount. I think it is more than 50,000. 10/12

Serial
No.

The area already surveyed on the large scale is 18,335 sq. miles as shewn below:--

9215 sq. miles first surveyed for which the Survey of India Department did not ask for any contribution from the State.

1420 sq. miles ~~not~~ surveyed for which a sum of ~~XXXXXX~~ Rs.7810 was paid at Rs.5½ per sq. mile.

8200 sq. miles further surveyed for which a sum of Rs.40,000 is proposed to be paid now in 4 instalments of Rs.10,000. This works out to ~~Rs.~~ about Rs.5 per sq. mile.

18,835

The area remaining to be surveyed is 10,600 sq.miles. If a sum of Rs.50,000 is offered for this, the cost will be about Rs.5 per sq.mile.

The Survey Department have agreed to Rs.5-8-4 per sq. mile. At this rate the contribution for the remaining 10,600 sq. miles will be Rs.56,300/-

137) A draft is to be for this amount

I agree with the Chief Secretary in thinking that it is undesirable to defer the resumption of this work for four years more. The survey having been decided upon, it is best to have it carried out as promptly as possible. It is not clear from the papers ~~at~~ what time would be required ordinarily by the Survey Department for completing the work in respect of the remaining 18,835 sq. miles. In his letter dated 27th January 1926, the Director states that this work will be distributed over five years. Whether the work itself requires ^{this} period or whether this period is suggested by him because we have proposed to pay the sum of Rs 50,000 in annual instalments of Rs 10,000, are points which are not clear. If the work cannot be finished in less than five years, we may agree to pay the sum of Rs 90,000 due by us in annual instalments of Rs 18,000 each commencing from the next year, on condition, as stated by the Chief Secretary, that the work is immediately resumed. It is undesirable to defer the discharge of a liability undertaken and it is in this view that we have proposed that we may agree to pay up the dues in five years. This additional demand may create some inconvenience in drawing up the budget programme for the next year, but as a settlement for the execution of this work has been made, it is best to give effect to it without delay.

Submitted to His Highness.

These papers relate to the question of Survey Operations in the State by the Survey of India.

In accordance with His Highness' Orders communicated by the Private Secretary to His Highness in D.O. letter No. 114 dated the 3rd December 1925 the Residency was informed that a sum of Rs. 40,000 for the 8,200 Sq. miles in the State already surveyed will be paid at the rate of Rs. 10,000 per annum for a period of four years beginning from the year 1926-27 and Rupees 50,000 for 10,600 sq.miles remaining to be surveyed in five equal instalments of Rs. 10,000 per annum after the payment of Rs. 40,000 for the area already surveyed.

In reply the Secretary to the Resident forwarded a copy of a letter dated 27th January 1926 from the Director Southern Circle, Survey of India, Bangalore, agreeing to our proposal but stating that the re-survey of remaining area will not be commenced until the contribution of Rs. 40,000 for work already done has been paid in full. He also suggested that if the contribution can be paid in larger instalments so as to reduce the period of payments the resurvey will be expedited and completed earlier.

As it is undesirable to defer the discharge of a liability undertaken the Residency was after consulting the Financial Secretary informed that we are prepared to pay the sum of Rs. 90,000 which we have agreed to pay for the area already surveyed and for the area still remaining to be surveyed in five annual instalments of Rs. 18,000 beginning from 1926-27 if the survey of India resume the work immediately and complete it early.

I now submit the papers for the gracious perusal of His Highness

Secretary to the Resident.

"Copy"

Letter No.141, dated the 27th January 1926, from the Director, Southern Circle, Survey of India, Bangalore, to the Hon'ble the Resident in Mysore, Bangalore.

Subject:- Contribution towards the survey of Mysore State.

Reference:- Your No.10339 dated the 15th December 1925.

1 am directed to state that the Surveyor General agrees to the proposal of His Highness' Government, to pay a sum of Rs.40,000/- for the 8,200 square miles in the State already re-surveyed by us. The amount to be paid at the rate of Rs.10,000/- per annum for a period of four years commencing from the year 1926-27.

2. The surveyor General also agrees to a further payment of Rs.50,000/- for the re-survey of the 18,835 square miles of the State remaining to be completed. This sum to be paid in five equal instalments of Rs.10,000/- per annum commencing from year 1930-31.

3. The ~~xxx~~ re-survey of the above area in the State remaining will not, however be commenced until the contribution of Rs.40,000/- for work already done has been paid in full. The re-survey of area of 18,835 square miles will therefore be started in the year 1930-31 and will be distributed over five years.

4. If however His Highness's Government see their way to increasing the instalments for payment each year for the

for the work and so reduce the period of payment and quicken up the final settlement; the Surveyor General will be pleased to order that the survey should also be expediated and completed earlier.

Before approaching the Government of India on the subject the Surveyor General would like to receive a definite statement from His Highness' Government that they agree to the above proposals.

R e g i s t r a r .

FROM

Major K. A. G. Evans Gordon,

SECRETARY TO THE RESIDENT IN MYSORE.

TO

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore.

Dated Bangalore, 16th February 1925.

Subject.

Survey operations in Mysore and the question of
the Mysore State's contribution towards their
cost.

SIR,

I am directed to invite a reference to your letter
No. Pol.305, dated the 5th October 1923, and to forward a
copy of a letter No.216, dated the 5th February 1925, with
map, from the Director, Southern Circle, Survey of India.
I am to request that the Resident may be favoured with the
views of the Mysore Government.

2. The Resident does not wish to comment on the
letter beyond observing that there can be little doubt that
an up to date map on a reasonably large scale is of -
immense value in the economic development of the country-
side and the Mysore Government have now an opportunity of
obtaining such a map of the State at a minimum cost. It
cannot be denied that ultimately the public will insist on
having such a map. If the matter is deferred the
probability is that the cost will be four times as great
as the present estimate.

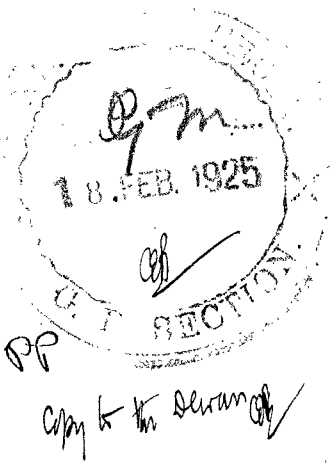

I have the honour to be,
Sir,
Your most obedient servant,

K. A. G. Evans - Gordon
KAG

SECRETARY TO THE RESIDENT

x
Return
requested.

(G)

Southern Circle, Survey of India, Bangalore, to the Hon'ble the Resident in Mysore, Bangalore.

---:0:---

Subject:- Survey operations in Mysore and the question of the State's contribution to their cost.

(G)

Reference:- Letter Pol.305 dated the 5th October 1923 from the Chief Secretary to the Government of His Highness the Maharaja of Mysore to your address and in continuation with our discussion on the subject this morning. (on 4th February 1925).

The subject may conveniently be divided under 2 headings i.e.-

(G)

(a) The Government of Mysore's agreement to pay Rs.5/8/- per mile for 1420 square miles surveyed in 1923-24, amounting to a total of Rs.7,810/- vide paragraph 3 of the above quoted letter.

(b) Further contribution by the State towards the cost of survey operations over the area still remaining to be done.

I will deal with (a) first. The State has not yet paid in the amount in question.

A.

Could you approach the Mysore Government and ask whether they would be pleased to pay the amount in to the Government of India and by what date ? The area in question has been surveyed and the resulting maps are now under publication.

With reference to (b). It was originally decided to carry out the revision survey on the $\frac{1}{2}$ -inch to 1 mile scale the policy hitherto adopted for all large Indian States (for instance Hyderabad has been surveyed on that scale).

But this policy now requires reviewing afresh, it has certainly not been without disadvantages in Hyderabad, it has been discovered that it would have really paid that State to have had the work done on the 1-inch scale. We are now undertaking this in certain areas where the State is developing industrially and even 2-inch surveys have been asked for.

Amongst other disadvantages may be enumerated as under:-

(i) It leaves an anomalous block of $\frac{1}{2}$ -inch work in an area which will be entirely surrounded by 1-inch work - vide index attached. If the Survey of India is called on to subsequently revise and publish this on the 1-inch scale it will largely increase the cost and the later would have to be borne entirely by the State, at present it is only intended to ask the State if it will be pleased to pay at the same rate as hitherto i.e. at Rs.5-8-0 per square mile: whereas

whereas the full cost may quite possibly amount to as much as Rs.24/- per mile.

(ii) For development purposes (and the Mysore State is developing fast industrially) such as Irrigation, Railways, Industrial concerns etc., the 1-inch scale is far superior to the $\frac{1}{2}$ -inch, the contours are at a closer interval and relatively more accurately surveyed. It is uneconomical to re-map on the $\frac{1}{2}$ -inch scale what has already been done on the 1-inch, the bigger scale still holds good.

(iii) On the old-style map in black the hill features are mere form-lines, not contours at definite intervals and definite levels cannot be run along them in consequence as the heights above mean sea levels are not known, nor their respective vertical intervals inter se. The maps are all in black and difficult to read as compared with the modern maps in colours.

Classification of such features as roads is misleading, some of the roads either do not exist as such now or are unsuitable for motor traffic.

Then they do not fit on to the modern maps in colours where they adjoin.

(iv) Coffee Estate owners require 1-inch not $\frac{1}{2}$ -inch maps.

(v) Applicants for maps will seldom accept the old-style maps and cannot understand why we do not publish in new style, they compare the two style and find the older maps useless for their purpose.

The Surveyor General of India has asked me to express his regret that we omitted to regularise the position by asking the approval of the Mysore Government to a change of scale and their assent to a contribution of Rs.5-8-0 per square mile for the remaining area 18,809 square miles.

The lack of co-operation of the Mysore Government in this respect might possibly put us in difficulties with the Government of India later on.

But I think I am quite justified in saying that in the event of the State kindly consenting to pay its share towards the cost of the survey of the remaining area, the Government of India would not press for early payment, certainly not before financial year 1926-27 and subsequent years. This would give the State time to thoroughly consider the position and make all necessary financial arrangements and arrange to contribute by 2 or more instalments.

Would

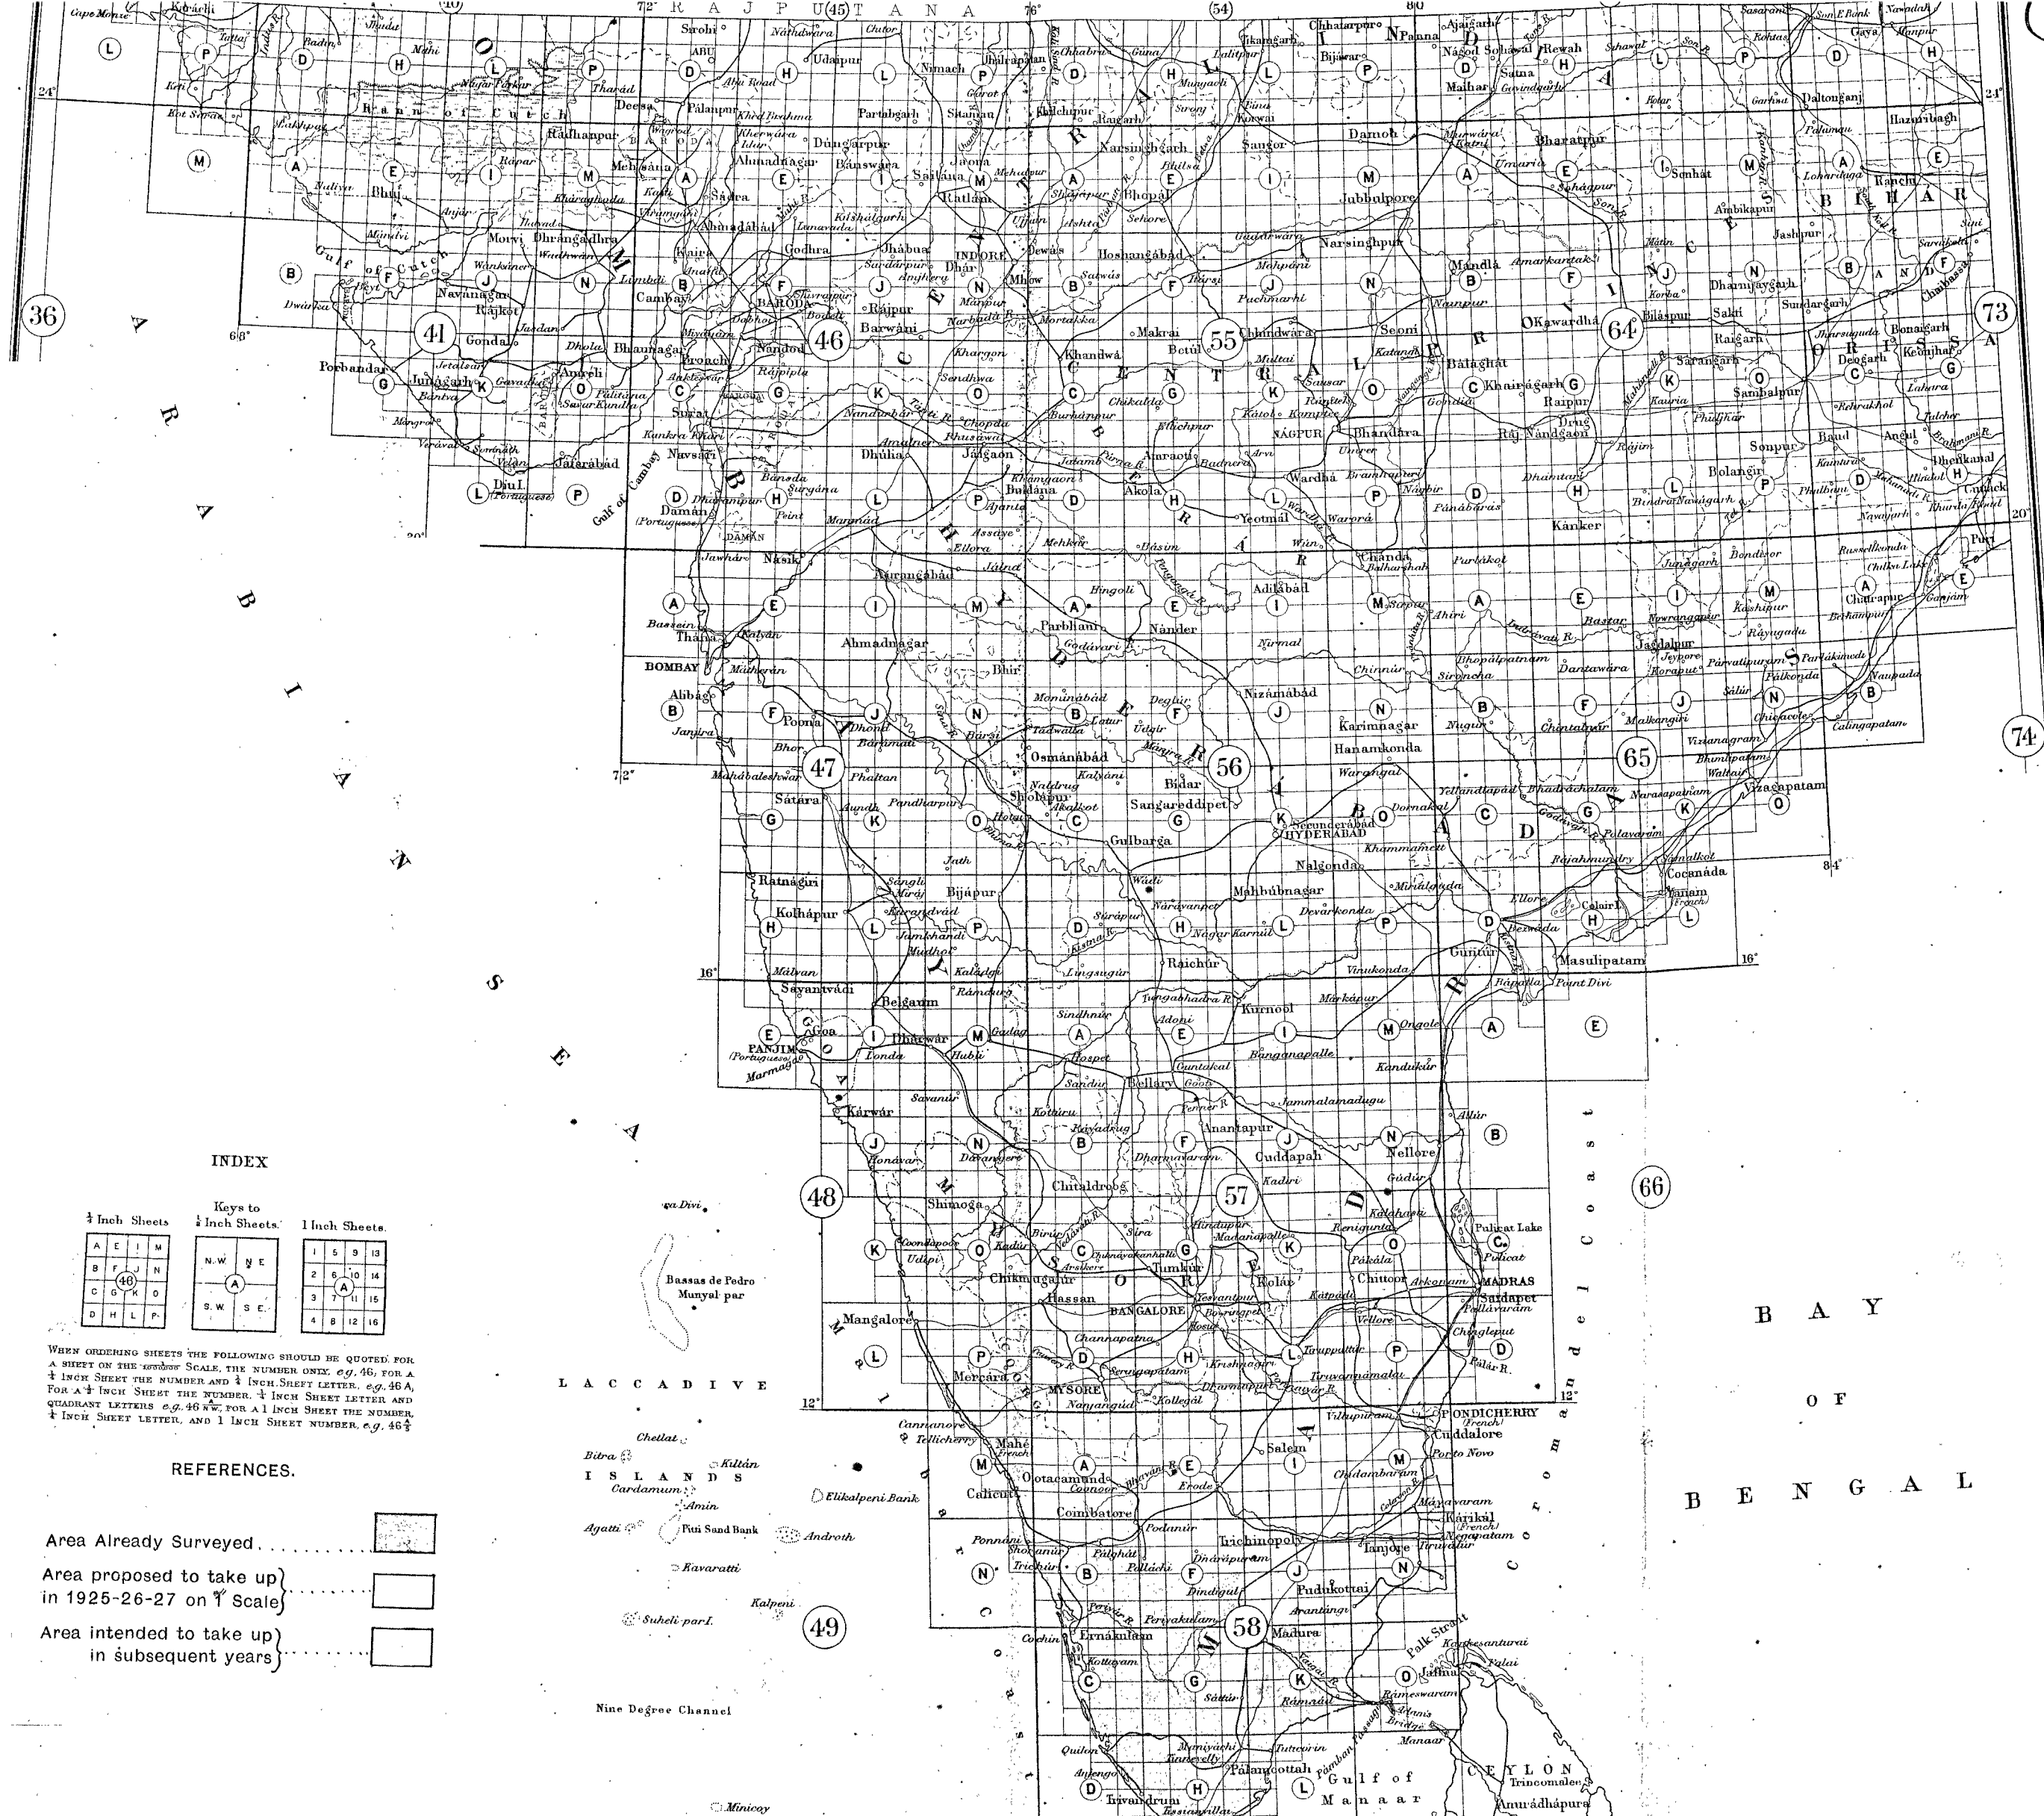

- 3 -

Would you kindly see what you can do to assist us in the matter and obtain the approval of the Mysore Government to the change of scale from $\frac{1}{8}$ -inch to 1-inch and kindly contribute towards the cost of the operations as suggested above.

Pol. 142

FROM

Major K. A. G. Evans Gordon,

SECRETARY TO THE RESIDENT IN MYSORE.

P.P. 95-24-6

To

The Chief Secretary to the Government of

His Highness the Maharaja of Mysore.

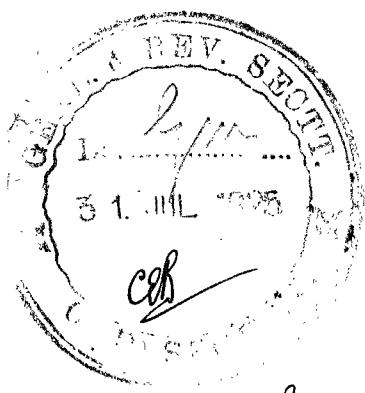

Dated Bangalore, 30th July 1925.

Subject:

SIR,

With reference to your letter No. Pol. 18/P.P. 95-24-5, dated the 9th July 1925, I am directed to invite your attention to my letter No. 10436, dated the 15th December 1923 in which it was stated that the Government of India - accepted the offer of the Mysore Government to pay the sum of Rs. 7,810/-, this sum representing (at 5/8 per square mile) half the excess cost of the topographical re-survey of an area of 1,420 square miles within the Mysore State consequent on the adoption of the 1 inch to 2 miles scale. In the last paragraph of that letter it was stated that the Government of India did not wish to pursue at that particular juncture the question of the State's contribution towards the cost of the area of 18,809 square miles remaining to be re-surveyed and revised: at the same time the hope of the Government of India was expressed that, when the time came, the Mysore Government would consider favourably the question of making a contribution. With my letter No. 1340/345-1894, dated the 16th February 1925, a copy was forwarded of a letter No. 216, dated the 5th February 1925 from the Director, Southern Circle, Survey of India, in which it was suggested that the

assent

Copy to Alwan CEB

han

19

assent of the Mysore Government should be obtained to a contribution at the same low rate of Rs.5/8/- per square mile for the remaining area of 18,809 square miles.

The Director, Southern Circle, has since pointed out that the re-survey of a part of the Mysore State was continued after the issue of my letter of 15th December 1923 and that a further area of over 8,200 square miles has been re-surveyed, leaving an area of roughly 10,600 square miles unrevised.

It appears that no specific undertaking was asked for from the Mysore Government before this last item of 8,200 square miles was taken in hand, it being felt confidently that the Government of India's hope, as expressed in paragraph 2 of my letter No.10436 dated the 15th December 1923 would not be disappointed.

The regularisation of the position appears to be desirable before any further work is undertaken in connection with the area of (roughly) 10,600 square miles now awaiting re-survey, and I am to suggest that a conference be held at an early date at the Residency between the Hon'ble the Resident, the Director, Southern Circle and the Dewan in the hope that an agreement may be reached which may be forwarded to the Government of India for formal sanction.

I have the honour to be,

Sir,

Your most obedient servant,

W. S. Gordon

Major.

SECRETARY TO THE RESIDENT.

9/11

T o

The Secretary to the Hon'ble

the Resident in Mysore.

....

Sir,

With reference to your letter No.6418-

245-1894

dated the 30th July 1925 in regard to the Survey operations of the Survey of India in Mysore and the contribution towards the cost of the survey, I am directed to state as follows:--

It is clear from the correspondence that the Government of His Highness have always held the view that, as far as their requirements are concerned, the scale of one inch to two miles was quite sufficient but that if the Survey of India wanted to adopt the larger scale, the Government of His Highness would have no objection, but they did not offer to contribute towards the extra cost excepting for the 1420 sq. miles for which payment was made at the rate of Rs.5-8-0 per sq. mile as a special case. No contribution was asked or paid for the 9000 sq. miles previously surveyed and mapped. The Govt. of His Highness have also made it clear in their letter of the 5th October 1923, wherein it is expressly stated that the question of the State contribution to the cost of the survey did not arise, that they were not prepared to undertake any additional liability

The Government of His Highness therefore regret the mistake made by the Survey ^{in having continued the Survey on the large scale} of India, ^{but} ~~but~~ ^{then} ~~having~~ regard to the fact, that the maps on the larger scale are not required by them and the contribution to be paid amounts to nearly a lakh of rupees, ^{for the remaining 18,800 sq miles} they do not feel justified in accepting any further obligation.

If, however, for any reason, the Survey of India should choose to complete the survey of the State on the larger scale, I am directed to state that the Mysore Government will be prepared to make a lumpsum contribution of Rs.10,000 in addition to the sum of Rs.7,810 already paid, ^{after the work is completed} provided a sufficient number of maps is supplied free.

In view of the position explained in this letter I am to observe that it may not be necessary to hold the conference suggested in paragraph 3 of your letter under reply and to request that if the Hon'ble the Resident agrees in this view the Survey of India may be informed of the offer made by Government in this letter and the result intimated.

I have, etc.,

A
Chief Secretary to Government.

16/5/05

9th November 1925.

SURVEY OPERATIONS IN THE MYSORE STATE.

Dear Sir Albion,

In continuation of my letter No.8990,dated the 3rd November 1925,I am desired to state that the Surveyor General is unable to recommend Government to accept the offer of Rs.10,000 as a contribution towards the cost of modern one inch survey of nearly 20,000 square miles of country.

He suggests that a discussion should take place between yourself,Lt.Col.Tandy and the Resident with a view to arriving at some more satisfactory arrangement. The Surveyor General would be glad if Colonel Tandy could carry out this conference personally,since he will then,on his arrival at Dehra Dun,be able to discuss the matter fully with the Surveyor General before it is submitted to the Government of India.

2. Lt.Col.Tandy states that he will probably be leaving Bangalore for Dehra Dun on Monday the 16th of November on relief by Lt.Col.L.C.Thuillier,I.A.. I am to suggest therefore that if it is convenient to you a discussion should take place at the Residency on Friday,13th Novr. at 11 a.m.

3. In this connection,Mr.Pears would invite a reference to the latter from this office No.6418/345-1894,dated the 30th July 1925,and would be glad to be favoured with the views of the Mysore Government.

Yours sincerely,

Sd/ K.Evans Gordon.

Sir A.R.Banerji,Kt.C.S.I.,C.I.E.,

Dewan of Mysore.

To

The Secretary to the Hon'ble
the Resident in Mysore.

Sir,

I am directed to invite attention to the correspondence ending with your demi-official letter No.9145 dated the 9th November 1925 regarding the re-survey of the State on the larger scale of one inch to a mile by the Survey of India. On a further consideration of the proposals, His Highness' Government agree to pay a sum of Rs.40,000/- for the 8200 sq. miles in the State re-surveyed by the Survey Department. This amount will be made payable at the rate of Rs.10,000/- per annum for a period of four years beginning from the year 1926-27.

2. As 18,835 sq. miles of the State have already been re-surveyed by the Survey Department on the larger scale of one inch to one mile, His Highness' Government ^{consider that} it is desirable to complete the re-survey of the remaining area of 10,600 sq. miles also on the same scale. They would be prepared to offer a sum of Rs.50,000/- for this purpose. If the Survey of India Department is agreeable to the proposal, His Highness' Government would arrange to pay this

amount in five equal instalments of
Rs.10,000 per annum, after the payment
of Rs.40,000 for the area of 8200 sq.
miles already surveyed.

These proposals may be communicated
the Survey ~~Department of the Govt.~~ of
India and their views obtained as early
as practicable.

I have, etc.,

Chief Secretary to Govt.

Letter No.141, dated the 27th January 1926 from the
Director, Southern Circle, Survey of India, Bangalore, to the
Hon'ble the Resident in Mysore, Bangalore.

-----:000:-----

Subject:- CONTRIBUTION TOWARDS THE SURVEY OF MYSORE
STATE.

Reference:-YOUR No.10339 DATED THE 15th DECEMBER 1925.

---,---:000:----

I am directed to state that the Surveyor General agrees
to the proposal of His Highness' Government, to pay a sum of
Rs.40,000/- for the 8,200 square miles in the State already
resurveyed by us. The amount to be paid at the rate of --
Rs, 10,000/- per annum for a period of four years commencing
from the year 1926-27.

General

2. The Surveyor^{General} also agrees to a further payment of
Rs. 50,000/- for the re-survey of the 18,835 square miles of
the State remaining to be completed. This sum to be paid in
five equal instalments of Rs.10,000/- per annum commencing
from year 1930-31.

3. The re-survey of the above area in the State remain-
ing will not, however be commenced until the contribution of
Rs. 40,000/- for work already done has been paid in full.
The re-survey^{of} area ^{of} 18,835 square miles will therefore be
started in the year 1930-31 and will be distributed over five
years.

4. If however His Highness's Government see their way
to increasing the instalments for payment each year for the
work and so reduce the period of payment and quicken up the
final settlement, the Surveyor General will be pleased to
order that the survey should also be expediated and completed
earlier.

5. Before approaching the Government of India on the subject the Surveyor General would like to receive a definite statement from His Highness' Government that they agree to the above proposals.

REGISTRAR, RESIDENT'S OFFICE.,

JK

To

The Secretary to the Hon'ble the
Resident in Mysore.

S i r,

I am directed to acknowledge the receipt of your Memo No.1046 dated the 2nd February 1926 forwarding a copy of letter No.141 dated the 27th January 1926 from the Director General, Southern Circle, Survey of India and requesting to be informed if His Highness' Government accept the proposals of the Surveyor General. The Surveyor General proposes to commence ~~re~~ re-survey of the area remaining to be surveyed in 1930-31 when the contribution therefor begins to be paid. The area to be re-surveyed is stated in the letter of the Director General to be 18,835 Sq. miles. It is believed that this should be roughly 10,600 Sq. miles. (Vide your letter No. 6418/345-1894, dated the 30th July 1925). The Surveyor General also suggests that if the contribution can be paid in larger instalments so as to reduce the period of payment the re-survey will also be expedite^d and completed earlier. If this is not done the re-survey of the State will according to the Director General's proposals not be completed till about ten years hence. His Highness' Government consider

Private

consider that the re-survey having been decided upon it is desirable to have it carried out as promptly as possible. They are, therefore, prepared if the Survey of India resume the work immediately and complete it early to pay the sum of Rs.90,000 which they have agreed to pay for the area of 8,200 Sq. miles already surveyed and for the area still remaining to be surveyed in five annual instalments of Rs.18,000 each beginning from 1926-27. I am to request ^{that} the Surveyor General may be informed [^] accordingly and asked if the work will be resumed immediately and when if resumed immediately it will be completed.

with compliments, to the Chief Secretary to
the Government of H. H. the Maharaja of
Mysore, for information with reference
to the correspondence ending with his
letter No.Pol.1093/P.P.95-24-12, dated

the 26th May 1926.

W. S. - G. S. -

Major.
Secretary to the Resident.

P.N.

Letter No.1008, dated the 11th June 1926, from the Director Southern Circle, Survey of India, Bangalore, to the Secretary to the Hon'ble the Resident in Mysore, Bangalore.

Survey operations in Mysore and the question of the State's contribution towards their cost.

Reference:- Your No.4825, dated the 2nd June 1926 and last paragraph of my No.971, dated the 8th June 1926.

The figures for the area still to be surveyed can be obtained as follows:-

	Sq. Miles.
(a) The total area of Mysore State.	29,444.
(b) Area surveyed prior to 1922-23.	9,215.*
(c) Area surveyed 1922-23	1,394.®
(d) " " 1923-24	608.
(e) * " 1924-25	7,532.
(f) Area still remaining to be re-surveyed omitting any small amount surveyed in 1925-26.	10,605.

The Surveyor General waived all claim to contribution for resurvey prior to 1922-23.

If you take the figures subsequent to 1922-23 for which we have been asking for contribution in aid including the balance still left to survey viz. (d) (e) (f) the total comes to 18,835 which is the figure we have used in asking for contribution and in other letters in this file. But the actual amount still left to resurvey is 10,605 which we have roughly called 10,600 square miles in correspondence and this figure will be again diminished by the amount done this last winter though this is not a large amount.

† All claim waived.
‡ Rs.7,810/- paid.

Director, Southern Circle, Survey of India, Bangalore, to the
Secretary to the Resident in Mysore, Bangalore.

---:0:---

Survey operations in Mysore and the question of the
States contribution towards their cost.

Reference:- Your No.4825 dated the 2nd June 1926. My No.971,
dated the 8th June 1926.

In continuation of my letter quoted above I beg to inform
you that the Surveyor General has approved of my proposals for the
resumption of the survey of Mysore and its completion by 1929-1930.

I enclose an index map which shows proposed work year by year
as far as it effects this question but it must be understood that
this index is only a fore-cast and that unforeseen events or
Government of India orders may necessitate a change.

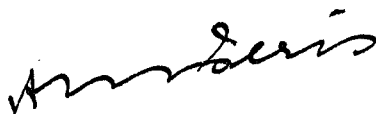

Every effort however will be made by me to complete Mysore
within the time stated.

In 1926-27 only the following sheets including parts of Mysore
will be done, 58 E/1 58 E/2 57 A/12. In 1927-28 the following
sheets containing parts of Mysore are proposed, 57 B/2, 6, 9, 10,
11, 12, 13, 14, 15, 16, 57 F 4, 7, 8. In 1928-29 sheets 48 N 11,
12, 14, 15, 16. In 1929-30 the remainder.

The reason of the small amount this coming winter is due to
the fact that sheets 57 A & E are unfinished. 57 A contains
Bellary the maps in the neighbourhood of which are urgently required
and which cannot well be left in an unfinished state for many
reasons.

OFFICE OF THE DEPUTY COMMISSIONER,
CHITALDRUG DISTRICT.

Dated Chitaldrug, 25th August.....1926 .

PP. 95-24-17

FROM

S. VENKATRANGAM, Esq., B.A., B.L.,

Deputy Commissioner,

Chitaldrug District.

P. G. D'Souza Esquire B.A., B.L.,
Chief Secretary to the Government of

His Highness the Maharaja of Mysore,

BANGALORE.

Sir,

With reference to your letter No.G.1814-11/PP 95-24-17 dated 17th August 1926 in regard to the programme for the conduct of topographical survey operations by the Director, Southern Circle of the Survey of India during the winter of 1926-27 in the areas coloured ~~in~~ red on the index map, I have the honor to state that there appears to be no objection to the proposed survey in respect of the area comprised in this District. The Index map received with your letter is herewith returned as desired.

2. In this connection I beg to state that the want of a set of topo sheets pertaining to this District is being very keenly felt and to request therefore that a set of the latest ^{available} edition may be kindly arranged to be supplied to me as early as practicable.

I have the honor to be,

S I R,

Your most obedient servant,

S. Venkatrangam

SV
Deputy Commissioner,
Chitaldrug District.
